

## Let's Keep McKownville filled with trees!

One of the joys of living in our neighborhood is the mature tree canopy. But because we have already lost many of our older trees and others are nearing the end of their lifespans, we have to keep planting! In 2025, **Plant McKownville** helped plant 15 trees in our neighborhood. Awesome!

Please join us in 2026 to plant more! This year, in partnership with *More Trees Arborist Collective*, we will be offering bare root trees that are 8' - 10' tall. If you plant the tree yourself the cost will be approximately \$150. You can also hire *More Trees Arborist Collective* to plant your tree. Their estimated cost is around \$500 for the tree, planting, mulching, pruning and a one year guarantee.

Official order forms will be available in June and the trees will be delivered to your house in mid-October. If you're interested in planting or want to learn more, please complete the form below and return it to Laura Barry, 3 Waverly Place, by May 1.

**Name:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**Phone:** \_\_\_\_\_

**Tree Location Type (circle):**

- Street Lawn\*
- Front Lawn
- Back or Side of Property

**Desired Tree Type (circle)** This helps us decide what to order:

- Shade tree (large canopy)
- Flowering tree
- Fall foliage
- Food for wildlife

***\*Please note that if you want to plant in the Street Lawn/Right-of-way (in most places to 15 ft. from the edge of the paved street whether or not there is a sidewalk present) the Town of Guilderland Tree Preservation Committee must verify the suitability of the site due to utility locations, overhead wires and town regulations. We will work with you to coordinate this process.***
