*CAGimlick moved to Arcadia Avenue by the 1930 census, but he is still on Western Ave in the 1925 census. Sale of #1249 in 1925/05 perhaps indicates when this happened. Suggest that he moved here from #1245 when he sold that in 1921; otherwise he might have remained there, but the 1925 census order (and Briare's caught later in it) suggests less likely.
 #this is Harmon E Vedder Sr, who was at 3 Parkwood up into 1932; Harmon E Vedder Jr continued at 3 Parkwood after this.

#Before 1930 (and after 1925) Caroline Knowles moved to 1436 Western Avenue. She is listed on Knowles Terrace in the 1925 NY census, but in 1925, 1920 censuses, no house numbers are given, so it is not certain that she remained in this house up to the time she and her son William J jr moved to 1436 Western; she might perhaps have moved into 11 Knowles in about 1924; William Knowles transfers a \$5000 mortgage on sale of #11 to Sanders in 1926/04.

Fuller Road (house numbers were changed in the 1990's - to make things difficult, not all in the same year, and even and odd numbers swapped sides of the road, and the numerical increment order changed direction along the road!!)

Before the change - odd numbers were on the east side, increasing northwards.

The 1940 census contains the house numbers; older ones do not.

No city directory records (prior to 1957).

Only houses known or likely to be on the east side of Fuller Road are listed.

Probable that some houses were replaced 1935-40.

The County Club

the 1940 census clearly identifies the Albany County Club households; there are four of them, with a lodgings, perhaps the club house attics/garrets, (containing 13 "hired hands"); and three others, with Stephen Wood, manager; Charles Furley, Chef, and Sidney Davis, groundskeeper, with two more lodging employees.

in 1930, under "Western Ave", there's just one household, with William E. Stephens, superintendant club grounds, and Mary R Schneider, manager club house, the two principals, and 18 employees.

in 1925, Charles Schneider, club manager, William E Stephens, superintendant, and 17 employees
in 1920, also one household, William Stevens, caretaker; 13 employees.

1915 census, William E Stevens, gardner, and 13 employees.

1910 census, William Stevens, superintendant, Thomas Witheral, caterer, 5 employees

1905 census, William Stevens, superintendant, Thomas Wetheral, manager; no employees listed.

1900 census, Thomas Bloomingdale, superintendant (grounds?), Alfred Shackles, steward, 1 waiter listed, and William E. Stevens, superintendant.

Altamont Enterprise article (date) reports William J Knowles moved in 1895 from the house which became the Country Club clubhouse (enlarged and renovated, and restyled by architect Marcus Reynolds). He bought, in October 1894, 2 acres from Kate McKown and 1 more acre from Henry Drumm east of and adjacent to the piece from K McKown. The house, now 1261 Western, is on the acre he bought from Henry Drumm, and Henry and his father Andrew built it, perhaps about 1879 (in the 1875 NY census they are in one house, but in the 1880 census, they occupy separate houses adjacent in the list).
