

**Petition
For Sidewalk Improvements
On Elmwood Street --- Guilderland, NY**

We, the residents of Elmwood Street who have signed below, hereby are making known to our Town Board members, and their representatives on related committees, that we want the sidewalks on our street improved. Currently, our sidewalks are in grievous disrepair due to years, if not decades, of neglect. In many places, the original concrete is badly buckled and broken. Large pieces are missing altogether. In other places, the concrete has been covered with blacktop. It, too, is in very poor condition. In addition, round metal access points to town water lines create another type of hazard by rising several inches above the sidewalk surface. Because of these problems, the sidewalk surface is far from being uniformly smooth and therefore is really not suited to its primary function, a pathway for walking. Children and the elderly have a particularly difficult time negotiating the sidewalks.

Unfortunately, the street itself offers no relief. Elmwood Street is a single block long with its southern end at Western Avenue and its northern end at Fuller Road. As such, it is frequently used by fast-traveling vehicles as a time-saving shortcut that bypasses traffic lights on Western and Fuller. The combination of decrepit sidewalks and fast-moving automobile traffic simply creates unsafe conditions.

Therefore, as funds become available through various town, state, and federal initiatives, we want Elmwood Street to be given significant consideration as improvements in pedestrian pathways get prioritized.

Thank you in advance for your consideration and responsiveness.
