Dear Neighbors:

I want to take this time to thank all of you for your help in addressing the sound barriers. This is the latest report received and I wanted to pass it along to all of you. Hopefully within the next few months we will have a favorable decision. I will keep you informed as to upcoming hearing dates.

I want to wish all of you a very happy and safe holiday season.

Walt Lotz

Dear Mr. Lotz:

The draft EIS will be released for public review next month. A public hearing will be held in February or March. At that time, the public will be allowed to formally comment on the report.

Dear Mr. Mastroianni:

Last year I had meet with you in your office to discuss the conditions necessary for the construction of sound barriers along the section that abuts Woodscape and Indian Hills developments. At the time you had told me that a reading of noise would be addressed during the summer of 2005 with the results out in the fall. I had emailed you with the fact that I had several property owners were open for the placement of such monitoring equipment.

Could you please at this point give me an update as to this most important item, and if the barrier could be in place prior to

construction? I have several hundred families in both developments on my bulk email list who are very concerned and want to be appraised.
