Don,

I read with interest your note about parking on the Western Avenue end of Glenwood St. I, and at least one other neighbor, are very concerned about the congestion generated by parking on both sides of the road. I know there are times when a fire truck could not get up to our house, because of the parking on both sides of the street. I feel for safety reasons we should continue with parking on one side of the street only...even if it is not complied with all the time.

Marian
