Don - I won't be able to make the May 8 meeting or any meetings held on Friday nights.

After the board meeting, I gave some more thought to the meeting. I realized that although we talked about the four streets together, as if they were similar, they are not. They have different traffic problems. -

Norwood and Glenwood - regular dead end streets
Parkwood - the first block of the street handles the traffic of the two other streets on the circle - so has the traffic flow of three streets
Elmwood - many use that street as a cut through to Fuller Rd. Anita

PS Do you have any information on the school board candidates (cept the high school student - I know why he's running) other than what I read in the Enterprise?

Parkwood always has a lot of traffic because it handles three streets worth of cars. On a regular day, with no cars parked on either side, there's just enough room for two way traffic.
