*For your information  
 Dr Reeb*

Donald Reeb,

In response to the concerns with the signal work being done along Rte. 20 at the intersection with Norwood / McKown streets and at the intersection with Parkwood street.

I want to assure you and the other concerned neighbors, that the disturbed lawn areas on these corners will be restored, being graded and reseeded as is necessary. All ruts and tire tracks will also be addressed.

This restoration work will be done once the installation of the new signals, traffic detection loops, sidewalk panels and sidewalk ramps is complete.

If there are any other concerns or questions, please feel free to contact me at 557-2147.

Michael J. Vyce  
Engineer In Charge  
NYSDOT  
Region 1 Construction
