

Hi

On February 1 another zoning board meeting on the larger electronic sign proposed by Stuyvesant for its Western Avenue entrance will be held--Town Hall--7:30pm.

The Association is opposed to the sign--mostly because it is a dangerous intersection already and the sign will be distracting for drivers--but also because the electronic sign is too big---it is more like a billboard than a sign--and is out of character for the McKownville neighborhood.

At 7pm tonight you can watch on your TV the previous zoning board meeting on the proposed sign and become better informed about this issue..

Do plan to come to the February 1 meeting and do inform the Town--cropseyd@townofguilderland.org----or--356-1980, ext 1034---about your thoughts concerning the proposed sign and ask him to include ytour comments in the record.

There is a flashing sign in Colonie on Fuller Road near Arlene's Artist supply store---if you are not familiar with what a flashing sign looks like you might want to take a look.

Thanks.

Don Reeb
