October 14, 1977

Dear Don,

I have run into a slight snag concerning the use of the resevoir for skating. D. Brewer is out of town on vacation so we will have to wait until at least next Monday before I can speak to him.

Sincerely,

Dennis Moore
Director of Recreation

Ed Zymuski, Conservation Council member.

You were directed some
time ago to explore the use
of McKeownville Reservoir as a
recreation facility to be used
for fishing, skating and the like.

Please advise as soon as
possible the results of your
research.

Mr. Richard Svenson, Director
Environmental Services
Albany County Health Department
Green St.
Albany, N.Y.

Dear Mr. Svenson:

Please excuse the late "thank you" for your attendance at a meeting of the McKownville Improvement Association regarding the question of ice skating on the McKownville Reservoir.

This is a request of your department to grant the Town of Guilderland on behalf of the McKownville Water District permission to use the reservoir for ice skating in the winter and recreation purposes in the summer. If there are other department of State government who have jurisdiction also, please advise.

Again thank you sincerely for your participation and interest.

Sincerely,

Carl J. Walters

Dear Sir:

It recently came to our attention that your organization might be able to stock some fish in the McKownville Reservoir. There are a lot of children here who have spent many enjoyable hours "drowning worms" there--some with good success.

We are quite proud and protective of our reservoir--and of the children who've fished there. Anything that you can do to make this a better fishery would be gratefully appreciated by all of us.

Thank you for your consideration.

Yours truly,

John K. Esler
President
