

***McKownville Improvement Association, Public Meeting
Thursday, October 19, 2017, 7:00 to 9:00 p.m.
Hampton Inn, 1442 Western Avenue***

We have a full agenda for our October meeting. First, John Brust of Delaware Engineering and Town Supervisor Peter Barber will tell us what we can expect during the first phase of improvements to McKownville's storm water management system. Immediately following that presentation, Supervisor Barber will discuss plans for the repaving of Route 20 between the Albany city line and the Northway.

Election Day is Tuesday, November 7, and our last speakers of the evening are the candidates for Guilderland Town Supervisor and the Town Board. Each candidate will have the opportunity to speak and answer questions from the audience.

Other News:

In May, the City of Albany approved the rezoning of Sandidge Way (formerly Loughlin Street) from single-family residential to RV-Residential Village, allowing for development of up to 173 apartments on the site. The houses remain vacant, and so far no plans have been filed with the City of Albany Planning Department for their demolition or for subsequent development on the street.

A new building has replaced the former dilapidated structure at 1210 Western Avenue. We had a good turnout for the September 16th potluck at the McKownville Reservoir Park. The weather, music, food and company all contributed to a memorable event.

This month's meeting will be especially important and informative to the residents of McKownville. Please join us. As always, ice cream will be served.
