Change to the email announcement system

The Officers and Board of the McKownville Improvement Association have decided to move our email group announcements to the email system at dreamhost.com where our website is hosted.

Here is what you need to know about this:

- **The new email system requires an individual to opt-in explicitly. You will need to take the following actions if you want to continue to receive emails from the Association.**

- **If you are on the current mailing list you will receive an invitation/verification email containing a link that can be used to confirm and activate the subscription.**

- **The invitation/verification emails will be sent beginning on Friday September 20th. You should expect to receive an email titled "Subscription Verification" from the email address donotreply@dreamhost.com.**

- **Use the link contained in that email message to confirm that you wish to continue to receive announcement emails from the Association. You should receive a webpage confirmation that your subscription was successfully verified.**

If you are reluctant for security reasons to use links within an email, copy the whole link, paste it into your web browser address/location bar, and after seeing there that it really is a dreamhost.com url link, go to it by pressing the keyboard Return key, or go button in the browser toolbar).

If you wish to <u>discontinue</u> receiving email announcements from the Association at that email address, do not use the verification link, and delete the email message.

If the Subscription Verification email does not appear in your email inbox within a few days after September 20th, have a look for it in the spam/junk folder.

If you have any questions or concerns about this please contact the Association at [mailbox@mckownville.org]. It will help us if you use an informative title for your email, e.g. "Verify Subscription not received".
