

McKOWNVILLE IMPROVEMENT ASSOCIATION

McKOWNVILLE, ALBANY, N. Y.

June 13, 1934.

To The Property Owners of McKownville:

A serious problem has arisen as the result of complaints filed with the State Board of Health concerning our sewerage system. We are informed that if the existing conditions are not corrected each property owner using present system would be notified to disconnect or be called upon to pay a considerable sum toward a disposal plant, the cost of which would be almost prohibitive to the average householder.

The Improvement Association, ever mindful of the interests of our community, have formulated a plan to overcome satisfactorily the objections raised at a very small cost. The Officers and Board of Directors at a meeting called for the purpose offered to explain this plan personally to the effected property owners. The question will be discussed also at the next monthly meeting of the Improvement Association June 19th at Firemen's Rooms.

This is a matter of utmost importance and it will be to your benefit to co-operate with the members of the Association both in the matter of talking the proposition over with the men who have so generously offered their services in taking up the facts with you personally as well as attending the meeting.

Do your Part!

Respectfully,

John F. Feldman, President

Mary M. Frederick, Secretary.
