

Special Meeting Tuesday, July 24th, Mr. Feldman presiding.

Purpose of meeting to ascertain just how much money had been collected to date toward the purchase of tile and the labor in constructing sewer.

It was reported that \$242.00 had been collected which amount was insufficient. Certain other collections had not been made motion was made and approved that members of the committees make a final report to the Treasurer not later than Friday night and that another special meeting of the Directors and committees be called for Tuesday, July 31st. Motion was also made and approved that if sufficient money had not been collected by that time to proceed with the work, that a special committee be appointed to interview the delinquent or opposing members of the community to acquaint them with the alternative in case this project fails.

The matter of the water situation was again brought before the Ass'n and after much discussion it was decided to abandon for the time being at least, any idea of purchasing the present supply or of obtaining water from the city; both being prohibitive in cost. At the same time it was decided to have Mr. Jenkins ascertain whether or not the matter may be reopened before the Health Board and the PSC. If so, it was decided to make another appeal to have the present supply properly administered.

Meeting adjourned, 10PM.
