

Regular meeting Tuesday, Nov. 20th.

Report of the Treasurer states that there is a deficit of \$27.00 for the sewer for which the Ass'n holds itself liable. In the absence of Mr. Seim, Treas., Mr. Weiler said that he had interviewed the complainants and that they have said that all complaints have been satisfied. Mr. Feldman announced that the committee was officially discharged with thanks.

Concerning the complaint at Glenwood St and Western Ave. re the accumulation of water it was reported that the State Highway Dep't had taken care of the matter in clearing the opening to the main sewer.

Re the speeding traffic thru the highway from the city line west, Mr. Feldman said that the net result to date was a visit from the State Troopers who said that considering the territory covered and the relatively small number of troopers, that they were doing the best they could.

Motion was made that a committee of four be appointed to see that the snow was removed from the sidewalks by the property owners in due time.

Due to the question of sidewalk ownership Mr. Conklin was appointed to interview the Town Board relative to this matter.

The matter of more adequate lighting of the side streets was discussed again but not acted upon definitely.

Mrs. Gannon, Chairman of the Entertainment Com/ proposed that the Ass'n wait until the new Fire House is completed before deciding on the first Impr. Ass'n social event of the winter.

Action was taken to arrange for a Benefit Card party at the home of Mrs. Frederick on Dec 5th.

present at meeting were Mr. Feldman Mrs.
