

May 7th, 1935.

Mr. J. Willard Holler, District Engineer,
353 Broadway,
Albany, N. Y.

Dear Sir:

Re: Sidewalks of McKownville, Albany Co., N. Y.

In connection with the above subject I enclose copy of letter dated June 8th, 1933, addressed to Mr. Arthur W. Brandt, State Highway Commissioner in the State Office Building, Albany, N. Y. Also a copy of letter dated June 14th, 1933, which I received from Mr. Brandt. Both of these letters are self-explanatory.

Up to the present time no definite action has been taken on this matter.

Our Association again solicits your co-operation and to that end are pleased to submit herewith blueprints showing Western Turnpike from Albany City line westward to the last development in our community. This plan also shows the proposed sidewalks.

Thanking you in advance in behalf of our Association,
I am,

Yours very truly,

John F. Feldman, President
McKownville Improvement Assn.
