Albany, New York

Dear Mr. Bannigan:

A number of residents in the McKownville section have spoken to various officers of the McKownville Improvement Association regarding the fact that they have been advised that there is to be some change in listing telephones of residents of our section.

In order that we might know first-hand what is contemplated, will you be good enough to advise me what there is to this matter.

I would appreciate it if this information would reach me not later than Wednesday, June 5 as the McKownville Improvement Association has its regular meeting on that evening.

Yours very truly,

Secretary
