

Solomon

Feb 16/37 8:10

Minutes of previous meeting read & approved  
Reports of Committees. 13 - 1 <sup>quarter</sup> reported on

Mr Feldman reported on sewer, interviewed  
Baker & Wheeler Eng, they recommended connection  
with city, see Mr McManus. Mr Feldman  
asked for opinion: Mr Cameron questioned  
cost.

Mr Solomon of Solomon & Keyes of Troy:  
Troy Charge Mountain View district 4.09/37.  
year per residence on 10 year contract and  
gave us very valuable information pertaining  
to sewer problems also the difference between  
P.W.A. & W.P.A. projects.

Water system, Artesian source of supply  
Shaker wells, Sew wells 243 feet deep which  
is underground source of Hudson bank

70 miles of lines to wells Rates 15.00/100  
year average, 2.67 Per 1000 Gallon fire  
hydrant. 10.00 to 5.55 fire reduction

line to Murray's Tavern - 8800 ft to  
Western ave.

Requires 5-1% of resid. to form bond  
4.50 to 2.67 Per thousand tax fire hydrant  
in Soltau

Waltham <sup>see to</sup> 15.00 per M to 8.00 average 12.00  
50,000 Gal per year or less 15.00

100,000 Gal tank for fire protection  
Annual Revenue 45- to 120 lbs does  
not require pump

505 altitude of tank

505  
220  
285

106 to 140 Pails per Muller 130 average

always 64

51% of assessed valuation  
51% " " " Res. Bureau

75% the purchase

Eng firm

will 8% Eng services + cost of Res eng

during construction 250.00 Per mo.

\$250.00 for preliminary expense

Rough estimate + preliminary survey at no charge

Mr Solomon will make preliminary report and report to board of directors in few days.

Motion made and seconded to thank Mr Solomon for his information & Co-operation  
Meeting adjourned 10:15 PM

Joe R. [unclear]  
Acting Secy.

Feb 16 1937

Mr Solomon also described the Latham water system which is of artesian origin with wells 243 ft deep which is the underground stream of prehistoric Hudson Mohawk river. Some of the details were

70 miles of pipe line

6 flowing wells

Rate \$13.00 Per year average

\$2.67 per 1000 Valuation fire hydrant cost  
Latham pays \$2.67 to 40¢ per 1000. Valuation

Present 8" line ends at Sawrays Tavern on

fuller Rd which is 8800 ft to western Ave.

Mohawk is metered cost average 12¢ Per 1000  
50,000 gal per yr minimum for 15.00

Fire protection requires 100,000 gal storage. Metering

full pressure would require 285' Tank. No pumper  
would be required as pressure would vary from 75 to  
120 lbs.

Water varies from 106 to 140 parts per million  
in hardness Albany system has 64 parts

Mr. Solomon offered to make preliminary survey for  
no charge if ~~services~~ are retained a charge of 250.00  
and 8% of cost plus cost of resident engineer. To be  
Engineering fee.

Notes made & see to thank Mr Solomon for his  
information & cooperation  
As You read 10:15 PM.
