WILLIAM E. ENDICOTT, BUSINESS MANAGER

February 27, 1957

Mr. John Feldmann, President
McKownville Improvement Ass'n,
10 Glenwood St., McKownville,
Albany 3, N. Y.

Dear Mr. Feldmann:

The Board of Education and its Citizens' Advisory Committee is about to start discussing publicly the plans for the construction of the 29 elementary classrooms and the 24 room junior high school which will be needed to house the Guilderland Central school population by 1960. It is the desire of both of these groups to meet as many civics units as wish to hear the plans and construction costs discussed. Therefore, I am writing to you to advise you that the Citizens' Committee will send a panel to appear before the McKownville Improvement Association at its March meeting, providing the association wishes to hear the group.

If you find that the association desires to have such a panel appear before it during the month of March, kindly advise me as soon as possible so that I may make the necessary arrangements. I am sure you will agree that it is desirable to have as much public discussion as possible on this important construction problem which faces the district.

Very truly yours,

W. E. ENDICOTT
Business Manager.
