Guilderland, New York

Re: Lawn Watering-McKownville

Dear Mr. Jacobson:-

Last season this organization had requested a rotation of watering nights in various sections of McKownville, but, apparently this request came too late to be put into effect.

We would kindly request that the system be put into effect this year with a rotation of watering nights each subsequent season in order that certain areas do not always find themselves with the same two nights each year. Watering of lawns on Saturday night seemed to be the least desirable time. We feel, therefore, that by rotating the watering nights in one specific section or group of streets each year to different nights the community, as a whole, will be more pleased.

Thank you for your cooperation.

Yours very truly,

Gerald W. Hamme, Pres  
McKownville Improvement Assoc.
