

THE MCKOWNVILLE IMPROVEMENT ASSOCIATION

NOTICE OF ANNUAL MEETING

TUESDAY, MAY 21 - 3:00 P.M.

1968

CHRIST LUTHERAN CHURCH - WESTERN AVENUE

GUEST SPEAKER - Mr. John Buckhoff, Supt. of University Plant, will outline future plans, including new construction west of Fuller Road, near Washington Avenue Extension, and improvements of present plant, including smoke control.

ELECTION OF OFFICERS - Nominations and Voting for year 1968-1969. Also for Directors to 1971 in place of Messrs. J. F. Greisler, G. W. Hamme, W. A. Sharkey and Peter B. Schultz.

NEWS OF THE FIRE COMPANY - The McKownville Improvement Association extends congratulations on the 50th Anniversary and our thanks to the firemen for excellent fire protection services to this community. New quarters to be open for inspection May 25, 26.

WATER SYSTEM CHANGES - A report from the McKownville Water Advisory Board on Water System Improvements will be given at the Meeting, May 21.

MEMBERSHIP ENROLLMENT - All McKownville residents are invited to attend our meeting. We urge all home owners to send in the membership form below - to preserve residential neighborhoods and maintain home property values, your support is vital. Every year more land is changed from residential to business, and only a strong organization can block commercial encroachment. For land already zoned for business, we want high class - high tax base buildings: we don't want factories, heavy truck and fuel centers with noisy night operation, billboards, roadside stands for food or other sales, car washes, or more gas stations. The Improvement Association has sponsored or supported a better water supply, adequate sewers and refuse collections, subject to the making of changes in an efficient manner and at reasonable cost. And, of course, we favor child play areas, highway safety and improvements, control of air and water pollution and good long range planning. We welcome your suggestions - call anytime.

MEMBERSHIP FORM FOR YEAR 1968 - 1969
