

mended by Niagara Mohawk.

Word has been received from the New York State Thruway Authority that they are planning to auction off a parcel of land lying between Church Road and the Thruway and bordering on Route 20. Most of this land was purchased by the Authority before Guilderland's 1953 Zoning Ordinance went into effect, and the Authority desires that the land be zoned before it is sold. The Board voted to defer action on the matter until it has been considered by the Town Planning Board.

In other action the Board:

✓ Awarded a contract for \$888 for installing speed limit signs on residential streets between McCormack's Corners and the East edge of town.
