Guilderland Zoning Board of Appeals

Gentlemen:

The officers and directors of the McKownville Improvement Association wish to register a strong protest to the granting of the requested variance for a multiple dwelling at 21 Norwood Street, McKownville.

We believe that the Zoning Law, with reference to multiple dwellings, must be strictly observed for the protection of the community. To do otherwise, would only weaken the law and set a dangerous precedent leading to a pattern of determination.

In addition, we believe that such multiple dwelling is incompatible with the character of the neighborhood homes and would consequently depreciate their property value.

Very truly yours,

McKOWNVILLE IMPROVEMENT ASSN.
