

McKownville Improvement Association

Special Meeting

April 28, 1974

This was a special meeting called at the home of Mr. John Esler for the purpose of reacting to a bill before the State Legislature which would combine the three sewer districts, Krumkill 1 & 2 and the Normanskill.

It was suggested that because of the very short time limit (approximately 3 days) that perhaps our best efforts could be to telegraph the Governor, via the toll-free "public opinion number" to veto the bill since there would be no direct benefit to the residents.
