

The McKownville Improvement Association

McKOWNVILLE
ALBANY 3, NEW YORK

DATE: May 22, 1975

TO: Mr. Carl Walters, Supervisor
Town of Guilderland

FROM: John K. Esler, President
McKownville Improvement Association

SUBJECT: Stream Re-classifications

As you know, this Association has a sincere and abiding interest in the conditions of our many ponds and streams. I am enclosing for your benefit a copy of our Notice of Appearance as well as our official statement presented at the hearing held in March by the New York State Department of Environmental Conservation, for the purpose of re-classifying streams in the lower Hudson River Drainage Basin.

It was our intention in presenting this statement to secure for our Town's streams the recognition that we believe they deserve and the status we believe is necessary in order to protect them. In so doing, we have hope that they may continue to be used and enjoyed by the future generations as they have been in the past.

I realize that this is a subject of concern to the Town and a subject on which you may not have too much information. If you feel it would be of benefit, I or other members of our Association would be happy to sit down with you and the Town Board and explain the rationale behind our statement and answer fully any questions that anyone may have on this matter.
