Dear John:

We had a request from a lady on Knowles Terrace for street lighting, and while I was in the area, I went to the rest of the streets and found that Waverly Place was another Street that had no street lights.

Attached is a copy of the proposal and cost for recommended lighting on these two streets by Niagara Mohawk which will make a difference of approximately 06¢ per thousand of assessed valuation in the McKownville lighting district. Would you kindly indicate as soon as possible your Association's position as to whether or not we should include this amount for the budget hearing November 6th.

Thank you for your consideration.

Sincerely,

Carl J. Walters
