

Comment @ Tn. Bd Mtg

5/12<sup>3</sup>/<sub>10</sub>/77 by JKE

I've been asked by the Board of Directors of The McIA to speak tonight, on behalf of the McK Emp. Assn. <sup>to the Town Board</sup>

We were all upset by the lack of information and the conflicting information that was presented ~~in~~ during the period leading up to the May 3<sup>RD</sup> referendum on the consolidation of the Water Districts.

In particular we would, <sup>still</sup> appreciate receiving firm figures indicating: ~~2~~

1. The cost of producing water by the Westmore W.D.
2. The <sup>and sources</sup> gallonage of water produced by the Westmore W.D., and the amount distributed to each water district.
3. The indebtedness, and operating and maintenance costs for the Westmore and the McKannville B Water Districts.
4. The capital cost of all facilities used to produce and convey water to McKannville.

We are also concerned that McKannville Water Advisory Board has two members on the Board who are not residents of the Water District ~~and~~ <sup>but</sup> who are in a position to recommend actions which they themselves cannot vote on. We are also of the opinion that this Water Advisory Board has not acted in several respects in our best interests. We do at this time request that the entire board be ~~discontinued~~ reconstituted with new appointments made of Water Dist residents who are qualified to vote on all issues.
