

MCKOWNVILLE WATER ADVISORY BOARD

June 28, 1977

To all members of
McKownville Water Advisory Board

At my request the Town Board and Supervisor has authorized the Superintendent of Water and Sanitation to obtain from J. Kenneth Fraser & Associates, Engineers who are familiar with the McKownville Water Plant and supply to supply some figures on rehabilitation of the Filtration Plant and storage reservoir for the guidance of this Board in future determinations.

A copy of the report is enclosed for your study and information.

As soon as time permits I will set up a date for a meeting of this Board to consider the findings.

Fred B. Abele, Chairman
McKownville Water Advisory Board
