Division of Solid Waste Management
50 Wolf Road
Albany, New York 12233

5 Norwood Street
Albany, N.Y.
March, 27, 1978

Dear Earl:

This will confirm our previous discussion regarding the State project to widen and make other major changes on Route 20 from the Albany City line to Route 155.

Inasmuch as this proposed project is in a highly urbanized area and will involve cutting down many of the mature trees that currently stand along this stretch of roadway, your comments would be appreciated on any solid waste and other environmental implications that this project may have.

Sincerely,

Dr. Donald J. Reeb, Ph.D.
President
McKownville Improvement Association
