Re: Route 20 Widening Project  
Guilderland, N.Y.

Dear Commissioner:

As you know, the residents of our hamlet are extremely concerned about the adverse effects of the proposed project on the area from the Albany City-line to Fuller Road.

In as much as we are not aware of any formal public hearings having been held in conjunction with the project planning, we are concerned that the project design will continue without regard to its impact on our hamlet.

Would you kindly advise us of the status of any Environmental Impact Study which has been made in accordance with the requirements of the State Environmental Quality Review Act, and, if none has been prepared, could you likewise advise us of the justification for not preparing such a study?

Sincerely,

Donald J. Reep, President  
McKownville Improvement Assoc., Inc.
