Dear Mr. Childs:

This year we will be making an effort to get better skating on the McKownville Reservoir.

Kevin Moss has obtained an agreement with Stuyvesant Plaza to plow off the rink this winter and maintain a path to the ice. The Town Park Department will be erecting lights, developing a warming room in the water department building, testing the ice for safety and spraying ice as much as possible.

We are hoping to develop some fine ice-skating with this type of private-public cooperation. If the McKownville Improvement Association would like to sell donuts and hot chocolate in the warming room or help out in any other way we certainly could use help.

Very truly yours,

Dennis Moore
Director of Parks/Recreation
