Dr. Lindsey Childs
8 Providence Street
Albany, New York 12203

Dear Lindsey:

I just wanted to drop you a note to thank you for your participation at the March 15th, 1983, Exit 24 hearing. Your interest in this project and the ramifications it will have on the Town of Guilderland is appreciated by this office. I only hope that the Department of Transportation will decide on Alternative number 2 for all of the reasons stated on March 15th. I am quite sure that without your presence there would be less of a chance of this occurring.

Once again, on behalf of all of the residents, thank you for your presence. We are indebted to you.

I have enclosed a copy of my latest letter to the Department of Transportation on this subject.

Sincerely,

Kevin A. Moss
