

June 29, 1983

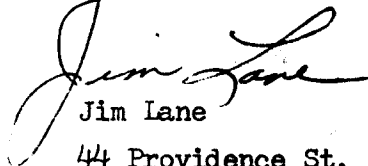

Mr. Paul Cooney, County Engineer
Albany County Highway Department
Voorheesville, NY 12186

Dear Mr. Cooney:

On March 3 I sent you a letter describing what appears to be a hazardous pedestrian traffic condition on the section of Fuller Road between Western Avenue and the nearest access road to the SUNYA uptown campus. You promptly acknowledged receipt of the letter and said you were giving it to the County Traffic Engineer and asking for a report in return.

To date I have received no further information. Please look into the matter and let me know what the findings may be or what decisions were made regarding the problem.

Thank you,

Jim Lane
