Dear Mr. Lane,

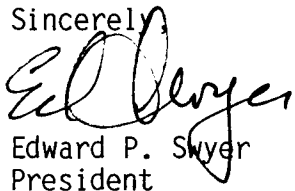

I appreciate your letter of August 8, 1983 and wish to confirm our support of increasing pedestrian safety along Fuller Road.

Discussions have occurred on and off over the years with the Department of Transportation and the County on this matter without any action, however since commercial activity has increased in the area recently, the need for safety improvements has become more critical and another effort should be made.

Coincidentally, I've discussed pedestrian traffic with Guilderland Town Supervisor, Kevin Moss and will be talking with him again shortly.

We would be glad to work with you on this effort.

Sincerely,

Edward P. Swyer
President
