

State University of New York at Albany

March 13, 1984

Mrs. Dorothy Ellinwood
Secretary
McKownville Improvement Association
22 Elmwood Avenue
Albany, New York 12203

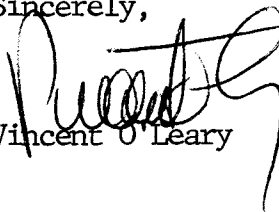

Dear Mrs. Ellinwood:

Thank you for your letter of March 8 setting forth the concerns of the Association with respect to the prospect of locating the civic center on University land at Fuller and Washington Avenue.

We are sensitive to the traffic and parking effects of such a project and, as you know, secured a preliminary evaluation on this subject from Clough, Harbour and Associates. That evaluation indicated that present and projected roadways and parking were adequate to accommodate the program for the structure envisioned in the University proposal. However, we understand the anxieties of those living in the area and would wish to make appropriate provisions for their protection.

If this site is selected for development of the civic center, we would plan further discussions with those residents most directly affected.

Sincerely,

Vincent O'Leary
