Dear Jim:

I am sure you have gotten a copy of Henry Williams' letter to me of March 8, 1985. However, I've included a copy just in case you didn't. I have sent a note to Tom Van Wagenen asking him to find the figures on the depth measurements done by his department before Crossgates construction started. I don't know in light of the Williams letter whether these will be all that helpful. I'll let you know once we get these.

Here's hoping we can resolve this matter favorably to the town.

Sincerely,

Kevin A. Moss
