Dear Jim:

I would like to also thank you for your support on the recommendation and for the amount of work that was done by the McKownville Improvement Association to help us pass this much needed legislation. I look forward to working with you and the other members of the association in the future to continue on with the movement that has taken place.

Please say hello to your lovely wife, Willa. Please tell her that I was asking for her.

With warm personal regards,

Kevin A. Moss
