

Mr. Kevin Moss, Supervisor  
Town of Guildford  
Town Hall, Route 20  
Guildford, N.H.

Dear Kevin,

This is a thank you note ~~to~~ in appreciation  
of your efforts to down zone much of the commercial  
property in McKeownville. I agree with you and  
like members of the Town Board that my community has  
been over-commercialized. ~~It is time~~ ~~I~~  
It took a good deal of quiet on your part to  
advocate rezoning as an effective way of protecting  
the residential quality of the community. I believe  
~~put~~ in a "good" ~~for the town~~ <sup>for the town</sup> officials to come  
out ~~publicly~~ <sup>in favor of rezoning</sup> to protect the  
residents of the community.

Although the final results didn't come out  
to a full 100%, somewhere around 80% - 95% of  
your recommendations were carried through. That's  
about as <sup>high a success rate</sup> ~~as~~ any public official can get  
in hope for when making controversial proposals.

On behalf of myself and the Board of Directors  
of the McKeownville Improvement Association I say  
thanks for the ~~for~~ time, effort, and thoughtfulness  
you put into this recent effort.

Sincerely

Jim Lee, President

To the editor

a tip of the hat to Kevin Ross and the majority of the Boardland Town Board for their recent efforts to remove much of the commercial property of McConnville. It isn't often that elected officials decide to move against commercial property owners in an effort to preserve the residential character of a community, but in this ~~case~~ case it was done and the result should be applauded by those of us who live in McConnville. Thank you for a difficult job well done.

~~Jim Ross~~
